

THE GO BETWEEN BRIDGE

IT'S ALL PART OF COUNCIL'S PLAN

OPENS MID 2010

Connecting northern and western suburbs to South Brisbane and West End.

Soon there will be a new cross-river connection providing better access to some of Brisbane's most popular education, recreation and cultural precincts and relieving traffic congestion around the CBD.

When open in mid 2010, Go Between Bridge will be accessible from Montague Road, Merivale and Cordelia streets in South Brisbane and will connect to the Inner City Bypass/Hale Street and Coronation Drive in Milton.

Motorists using Go Between Bridge can save up to 15 minutes on journeys when compared to using the William Jolly Bridge during peak periods.

Also featuring dedicated pedestrian and cyclist paths, Go Between Bridge is part of Council's plan to ensure Brisbane is a well designed, accessible and connected city now and into the future.

To find out more visit www.gobetweenbridge.com.au or call Council on 3403 8888.

GO WITH THE **flow**
